

February 14, 2007 - Either post them in the sub-forum of the modeling tool you are using or in the .asm2air.exe program that MS/ACES wrote to create .air, .csp and .cir. But if you want to publish them in more than one place, you need to use an .exe file. At least until a safer way is found to create the .exe file. On the other hand, if you can, post your .air files to the ASM forum. If you can't, post your .air files on the ACES forum. If you can't publish what you can't publish, create an .exe file that uses .csp to create .air files.
